Current Events/Political Science/Constitutional Law

In this clear and carefully reasoned book, a university chancellor and a law school dean—both constitutional scholars who teach a course in free speech to undergraduates—argue that campuses must provide supportive learning environments for diverse student body but can never restrict the expression of ideas. This book provides the background necessary to understand the importance of free speech on campus and offers clear prescriptions for what colleges can and can't do when dealing with free-speech controversies.

"Cogent, concrete, and controversial, *Free Speech on Campus* might well help launch candid and long overdue discussions, on campuses and elsewhere, of hot button issues, including 'hate speech' codes, trigger warnings, safe spaces, threats and harassment, protests that disrupt public events, online speech, and racist symbols."—**Glenn Altschuler**, *Huffington Post*

"A virtue of *Free Speech on Campus* is its attentiveness to the history and importance of freedom of speech and thought in higher education."—**Jonathan Marks**, *Weekly Standard*

"A thoughtful and insightful defense of both free speech on American campuses and the need to develop and protect inclusive learning environments, plus lots of good advice for current campus leaders."—**Peter McPherson**, President, Association of Public and Land-grant Universities

"Erwin Chemerinsky and Howard Gillman have written a concise and valuable history of the evolution of freedom of speech policies and laws in the U.S. . . . A masterful analysis of a cherished American right and a must-read for higher education leaders."—**Mary Sue Coleman**, President, Association of American Universities

ERWIN CHERMERINSKY is dean of Berkeley Law, University of California.
HOWARD GILLMAN is chancellor and professor of law, political science, and history, University of California, Irvine.
